

Alireza Rohani

RESEARCH SCIENTIST · SECURITY EXPERT

☎ (+65) 84-2364-18 | ✉ alireza.rohani1@gmail.com | 🇳🇱 Nationality: Dutch

Summary

Current security researcher in Physical Analysis and Cryptographic Engineering Lab. in Singapore. Experience in different aspects of security and fault-tolerance including side-channel attack, security assessment, hardware secure design and digital design. I enjoy understanding and working with cryptographic algorithms, as well as deploying them on real world devices.

Work Experience

Physical Analysis and Cryptographic Engineering Lab.

RESEARCH SCIENTIST

Singapore

Oct. 2016 - PRESENT

- Deployed modern cryptographic algorithms on hardware (FPGAs)
- Evaluated the security of cryptographic algorithms against side-channel attack
- Developed advanced side-channel attacks based on machine-learning
- Developed secure designs to resist side-channel attacks in hardware and software

University of Twente

POSTDOC.

Enschede, The Netherlands

Jan. 2015 - Oct. 2016

- Developed a mathematical model to correlate fault-tolerance and heat-generation in 45nm processors
- Delivered lectures for graduate and undergraduate courses in computer science
- Supervised one PhD student towards finishing his doctorate thesis

University of Twente

PHD CANDIDATE

Enschede, The Netherlands

Jun. 2010 - Dec. 2014

- Developed a software tool to automate reliability assessment of digital circuits
- Developed a design to increase resilience of DSP processors against radiation-induced faults
- Leader of a team of four graduate students to finish their final project of SoC design
- Published more than 10 technical articles in international journals and conferences, to see the complete list, see: <http://dblp.uni-trier.de/pers/hd/r/Rohani:Alireza>

IroC Technologies

INTERN

Grenoble, France

Feb. 2012, May. 2012

- Conducted evaluation test to evaluate the sensitivity of network card against single-bit faults
- Developed a reliability evaluation platform to automate fault injection & evaluation on hardware

Recore Systems

INTERN

Enschede, The Netherlands

Jan. 2011, May. 2011

- Worked on the design file of a modern DSP processor used in space applications.
- Developed a reliable design for the DSP processor which was used by European Space Agency

Education

University of Twente

PHD. IN COMPUTER SCIENCE

Enschede, The Netherlands

Jun. 2010 - Dec. 2014

- Computer Architecture for Embedded Systems Group (CAES)
- Thesis: Error-Mitigation Techniques in Modern CMOS Processors
- supervisor: Dr. Hans G. Kerkhoff, Prof. Gerard J. M. Smit

Amirkabir University of Technology

M.Sc. IN COMPUTER SCIENCE

Tehran, Iran

Sep. 2007 - Jan. 2010

- Thesis: Fault Tolerance FPGA Design
- GPA: 3.6/4

Skills

Programming	Python, Matlab, Assembly, VHDL, Verilog, LaTeX
Hardware Design	ModelSim, ISE Xilinx, Synopsis
Web	HTML5, CSS, Wordpress.org
Languages	English (fluent), Dutch (intermediate), Persian (native), Spanish (basics)

Presentation (selective)

VLSI Test Symposium

SPEAKER

- Technical Presentation about new issues in testing of digital systems

Las Vegas, United States

April. 2016

TEDxUTwente, Breaking Barriers

SPEAKER

- Non-technical presentation about how to manage PhD life

Enschede, The Netherlands

April. 2016

European Test Symposium

PRESENTER

- Technical presentation about the design of our secure processor

Paderborn, Germany

Jul. 2014

Recore Systems

PRESENTER

- Technical presentation to convince the managerial team to invest on security mechanisms

Enschede, The Netherlands

Jan. 2013

Toastmaster Club

SPEAKER

- Non-technical presentation (twice a month) mostly to practice impromptu speaking and storytelling

Singapore - The Netherlands

Dec. 2015 - Present

Program Committees (selective)

2014-PRESENT **Reviewer**, IEEE transaction on Circuits and Systems

Journal Paper

2014-PRESENT **Reviewer**, Elsevier Journal of Microelectronics reliability

Journal Paper

2012 **Session Chair**, 2012 IEEE Design for Test Symposium

Austin, United States

Extracurricular Activity

Toastmaster Club

PUBLIC SPEAKER

- Speaking two times per month to practice impromptu speaking and storytelling

Singapore - Netherlands

Dec. 2015 - PRESENT

TEDxUtrente & TEDxSaxion

MEMBER

- Spoke in TEDxUtrente about "The hidden danger of achieving your one big goal"
- Member of the curating team to find speakers for our TEDx salon (5000+ participants)

Enschede, The Netherlands

Dec. 2015 - Oct. 2016

Blogger

WRITER

- Writing mostly about life hacks that knowledge workers need to know in order to thrive in their professional life

www.alirezarohani.net

Jan. 2016 - PRESENT

D.R.V. Hippocampus & Vleugellam

SPORTS

- Member of the horse riding club and gliding association in Enschede

Enschede, The Netherlands

Dec. 2014 - Oct. 2016
